INDEX.

VOL. CXXIII.

Illustrations.

Names.

A

ADRIATIC, Submarines in the, 416, 426; (Letter), 467
American and Egyptian Cotton Seed, 213
American Heavy Goods Locomotives, Recent, Baldwin Locomotive Works, 244, 248
American Warships, Recent, 8, 41, 74 (*Two-page Supplement, January 5th*, 1917); (Letter), 67
Arizona, U.S. Battleship, 8 (*Supplement, January 5th*, 1917)
Ashton-under-Lyne, Newcomen Pumping Engine at, 218
Austrian and German Submarines in the Adriatic, 416, 426

B

BAGNALL-WILD, Lieut.-Colonel R. K., and Lieut. E. W. Birch, on the Use and Abuse of Steel, 352, 384, 430
Baker, Joseph, and Sons, Machines used in Soap Manufacture, 561, 564
Baldwin Heavy Goods Locomotives, 244, 248
Bartrum, C. O., A Clock of Precision, 161; (Letters), 198, 243
Beardmore, Sir W., on the Heat Treatment of Large Forgings, 263, 280
Blackstone and Co.'s Oil Engine Driven Pumping Plant at Portishead Dock (*Two-page Supplement, January 26th*, 1917)
Bombay Hydro-electric Power Scheme, 443, 448, 464, 472 (*Two-page Supplement, May 18th*, 1917)
Braby, F., and Co., Reid Standard Unit Construction for Steel Frame Buildings, 358, 362
British Westinghouse Electric and Manufacturing Company's Electric Rolling Mill Equipment, 402, 406
British Westinghouse Turbo-Generator for Ship Lighting, 406
British Westinghouse Works, Visit to, 402, 406
Broken Hill, New South Wales, Water Supply, 34, 38
Browne, Sir Benjamin (Portrait), 220

C

CAMPBELLS and Hunter's Swarf Briquetting Machines, 538, 539
Chicago River, Bascule Bridge Over, 174, 178
Chorlton, Alan E. L., Notes on the Construction of Turbine Pumps, 476, 477, 500
Clayton and Shuttleworth's Caterpillar Tractor, 308, 314 (*Supplement, April 6th*, 1917)
Coburn, F. G., Naval Constructor, on Power Forging of Chain Cables, 200, 204; (Letter), 230
Coggins, T. H., and A. E. Hook, Motor Installation for Barges, 420
Consolidated Brake and Engineering Company's Improvements in Vacuum Brake Apparatus, 594
Cooke, A. G., W. J. Gow, and W. G. Tunnicliffe, on the Manufacture of Gauges at L.C.C. Paddington Technical Institute, 95
Coppermill Concrete Bridge at Wraysbury, over River Colne, R. N. Stroyer, 206
Craig, A. F., and Co., Limited, Palm Fruit and Machinery Used in Oil Production, 192, 349, 396, 397 (*Supplement, April 20th*, 1917)
Craig, A. F., and Co., Limited, Revolving Cage Type Oil Press, 349 (*Supplement, April 20th*, 1917)
Craven Brothers' Tool and Crane Works, 197

D

DAGLISH, R., and Co., Apparatus Used in Soap Manufacture, 560, 564
Dalby, Professor W. E., Autographic Load Extension Optical Indicator, 422, 452, 453, 468
Dalby Extensometer, 422
Dalby, Professor W. E., on Strength and Inner Structure of Mild Steel, 318
Durston, Engineer Vice-Admiral Sir A. John, K.C.B. (Portrait), 377

E

ELECTROMOTORS, Limited, Lo-thermo Electric Motor, 26

F

FAIRFAX, H. G., Depericarping Machine, 193
Fielding and Platt's Brass Swarf Briquetting Machine, 538
Fletcher Illuminated Chart Table, Kelvin, Bottomley and Baird, 222
Forrest, James (Portrait), 220
France, Modern High Power Locomotive Economy in, 509
Franklin, Early Marine Engines, 146
Fraser, W. J., and Co., Apparatus Used in Soap Manufacture, 559, 560
French Atlantic Services, Early History, 145, 156; (Letter), 243

G

GERMAN Battle Cruiser of the "Moltke" Class 534
German Battle Cruiser Von der Tann, 534
German Battleship Friedrich der Grosse, 534
German Battleship Nassau, 534
German Battleship Ostfriesland, 533
German High Sea Fleet and its Bases, 533, 555
German Light Cruiser Strassburg, 533
German Submarine UC 12 Salved and in Italian Navy, 416, 426; (Letter), 467
Gilkes and Co.'s Hydro-electric Plant for a Yorkshire Mill, 266; (Letter), 289
Gresham and Craven, Vacuum Brake Improvements, 228

H

HANDLEY-PAGE 550 Horse-power Tractor Biplane, 517
Holden and Brooke's Portable Petrol-driven Fire Pump, 542, 548
Hollings and Guest Briquetting Machines, 514, 593
Hovgaard, Professor W., on Buoyancy and Stability of Submarines, 330, 340

I

ITALIAN Ore and Coal Carrying Steamship Milazzo, 194 (*Two-page Supplement, March 2nd*, 1917)

J

JOHNSON, William and Sons, Briquetting Machinery, 592

K

KELVIN, Bottomley and Baird, Fletcher Illuminated Chart Table, 222
Kennicott Company's Cycloid Weir Water Meter, 408
Kilburn Scott Process for Fixation of Nitrogen, 580, 595

L

LACY-HULBERT and Co.'s Portable Air-compressing Plant, 569
Lane, Howard, Oil Hydrogenation System, 511, 546 (*Two-page Supplement, June 15th*, 1917)
Laurenti's Diagram for Stability of Submarines, 331
London and North-Western Railway Electric Service to Watford, 332, 336
Lo-thermo Electric Motor, 26

M

MANCHESTER, New Dry Dock at, 492, 493, 496
Manlove, Alliott and Co., Limited, Cage Type Oil Press, 349 (*Supplement, April 20th*, 1917)
Manlove, Alliott and Co., Oil Production Machinery, 170, 171, 172, 192, 261, 307, 309, 349, 398, 399, 462, 463, 486 (*Supplement, April 20th*, 1917)
Mason, Dr. W., on Alternating Stress Experiments, 172, 176
Mendham, Conrad F., on An "Exploded" Reamer, 567
Middleton, Robert, and Co., Oil Production Machinery, 215, 240, 261, 398, 399
Milazzo, Italian Ore and Coal Carrying Steamer, 194 (*Two-page Supplement, March 2nd*, 1917)
Monometer Manufacturing Company's Case-hardening Furnace, 276

N

NATIONAL Gas Engine Company's Petrol Engine for Caterpillar Tractor, 308, 314 (*Supplement, April 6th*, 1917)
Nevada, U.S. Battleship, 8 (*Supplement, January 5th*, 1917)
Newcomen Pumping Engine near Ashton-under-Lyne, 218
New South Wales Belt Conveyor Coal Loading Plant at Port Kemble, 5, 14
New York Harbour, Removing Subaqueous Rock, 114
New Zealand Government Railway's Petrol Electric Coach, 90
New Zealand, Wairua Falls Hydro-electric Power Scheme, 376, 380
North British Locomotive Company's Tank Engines for Paris-Orleans Railway, 224, 229
North British Rubber Company's Factory Extensions, 91
North Staffordshire Railway, Passenger Tank Engine, 288

P

PARIS-ORLEANS Railway Tank Engines, North British Locomotive Company, 224, 229
Parkinson, J., and Son's Lathe for Turning Cam Shafts, 182
Pentrich Colliery, Eighteenth Century Pumping Engine, 56, 60
Portishead Dock Pumping Plant, Blackstone and Co., Limited, 80 (*Two-page Supplement, January 26th*, 1917)
Pumpherston Shale Oil Works, 270, 274
Pyrmont Electric Swing Bridge, 75, 84, 103, 110, 124, 132, 150, 151 (*Two-page Supplement, February 9th*, 1917); (Letters), 198, 230

R

RALLS, J. E. D., Five-Ton Petrol Motor Lorry, 354, 355
Ratho and Wigan Railway Accidents, 43, 44
Record Engineering Company's Safety Carriage for Mine Haulage, 525
Reid Standard Unit Construction for Steel Frame Buildings, F. Braby and Co., Limited, 358, 362
Rice and Co.'s Bundling Presses, 557
Roberts, Vincent, and Company, Electrolyser for Ships, 549
Robinson, Thos., and Sons, Limited, Boring and Recessing Machine for Aircraft Manufacture, 296
Rose, Downs and Thompson, Oil Production Machinery, 169, 171, 213, 240, 263, 395

S

SAN MARCOS Experiments, 369
Scott, George, and Son's Crutcher for Soap Manufacture, 559
Scott, George, and Son's Plant for Glycerine Recovery and Refining, 581, 585
Scott, George, and Son's Plant for the Vegetable Oil Industry, 439, 441, 559, 581, 585
Scottish Shale Oil Industry, 221, 270, 274
Sestri Ponente, Waterspout off G. Ansaldo's Shipyard, 183
Sharp, Robert Gordon (Portrait), 285
Simpson, E., on Workshop Design and Equipment, 197
Stirling, James (Portrait), 81
Stroyer, R. N., on Ferro-concrete Bridge over the River Colne at Wraysbury, 206
Submarines—*See* Ships
Sunbeam Motor Car Company's Aero Engines, 568
Swift, Geo., and Sons, Limited, Two New Lathes, 292, 296
Sykes, W. R., Interlocking Signal Company's Rotary Block System, 276

T

TATA Hydro-electric Power Scheme for Bombay, 443, 448, 464, 472 (*Two-page Supplement, May 18th*, 1917)
Taylor Underfeed Stoker, Scholey and Co., 88
Thatcher Manufacturing Company's Bottle-making Plant, 578, 588
Thomas Transmission Car in New Zealand, 90
Thomsen, T. C., on Lubrication of Steam Turbines, 238, 264, 319, 327
Timmins, E., and Sons, Apparatus Used in Soap Manufacture, 559, 564
Tompson, Fr., Eighteenth Century Pumping Engine, 138
Tullis, D. and J., Limited, Two Horizontal Drilling Machines, 387

U

UC 12 Salved and in Italian Naval Service, 416, 426; (Letter), 467
United States Investigations of Petrol Explosions in Sewers, 283
United States Naval Experiments on the San Marcos, 369

V

VACUUM Brake Company's Brake Improvements, 228
Valparaiso, Harbour Improvements at, 516, 520
Valparaiso, Temporary Dry Dock made with Sheet Piling, 64, 65

W

WAIRUA Falls Hydro-electric Power Scheme, 376, 380
Wallace and Tiernan Chlorinator for Water Purification, 252
Watford Electric Train Service, 332, 336
Webster, H. R., W. R. Combustion Indicator, 595
Wick, Lifeboat Station at, 19, 25
Wills' System of Electric Pumping, 409
Wilson's, Dr., Astronomical Model, 489

Y

YORKSHIRE Mill, Hydro-electric Plant, 266

Subjects.

A

AERONAUTICS, Commercial, 517
Air-compressing Plant, Portable, Lacy-Hulbert and Co., Limited, 569
Aircraft Engines of High Output, Sunbeam Motor Car Company, Limited, 568
Aircraft Propellers, Boring and Recessing Machine for, Thos. Robinson and Sons, Limited, 296
Annealing Furnace—*see* Furnace.
Astronomical Model, Dr. Wilson's, 489
Atmospheric Engine—*see* Pumping Engine, Newcomen
Autographic Load Extension Optical Indicator, Professor W. E. Dalby, 422, 452, 453, 468

B

BARGES—*see* Ships
Belt Conveyor Coal Loading Plant in New South Wales, 5, 14
Benzene Plant—*see* Oils
Benzol Recovery at Gasworks, 237
Biplane, 550 Horse-power Tractor, Handley-Page, 517

INDEX.

VOL. CXXIII.
